## PREDGOVOR

Uz milost Božju dovršeno je veliko i važno djelo. Nakon drugog izdanja »Vienca crkvenih pjesama« god. 1939. izlazi ovo i drugo izdanje »Zbirke crkvenih pjesama« ili »Prostopjenija« prema žumberačkom napjevu.

Prvo je izdanje važni i znatni prinos našem zbornom, a drugo našem koralnom crkvenom pjevanju. Teško je reći, koje je pjevanje važnije. Ako se stvar uzme sa praktične strane, valja iztaknuti, da je za sjemenište i za sjemenarce jedno i drugo pjevanje jednako važno, pa je stoga dužnost poglavara i mladeži, da jedno i drugo jednakom ljubavi i marom gaje i promiču.

Međutim u stanovitom pogledu koralno pjevanje je ipak važnije i za nas potrebnije, i to ne samo zato, što je osim liturgije sve ostalo bogoslužje vezano liš na koralno pjevanje, već i zato što po našim župama u crkvenom pjevanju dolazi do izražaja samo koralno pjevanje ili »prostopjenije«.

Radi li se pak o tome, da se pjesmom oda čast Bogu u većoj sabranosti duha i pobožnosti te s većim razumjevanjem i uz veće učestvovanje vjernika pa i čitave crkve, onda je jasno, da je koralno pjevanje ili prostopjenije za tu svrhu kudikamo prikladnije, nego zborno pjevanje, i to ne samo svojim sastavom i svojim posebnim načinom pjevanja, već i samom ljepotom melodije. I baš što se tiče melodije svatko će nam rado priznati, da je naše koralno pjevanje naročito lijepo i da posjeduje sve odlike i uslove za pobožno uzdizanje uma i srca k Bogu. Ono sadrži u sebi posebnu snagu molitve. Ali sve te prednosti koralnog pjevanja doći će do izražaja tek onda, ako se koralno pjevanje pored umilnosti bude izticalo naročito jedinstvenošću i skladnošću. Umilnost i skladnost to su dvie bitne oznake lipeg i skladnog koralnog pjevanja, pa im valja posvetiti posebnu pažnju.

Pjevanje mora biti »umilno«. Ono mora teći lagano i glatko, bez nervoznog usiljavanja kao i bez suviše vike i deranja, a takovim će biti samo onda, ako bude prodahnuto pobožnošću te duhom razumjevanja i sabranosti po onoj Duha Svetog: »Pojte razumno« (Ps. 45, 8). Pjevajte Bogu sabrano, pobožno i razumno.

Koralno pjevanje mora nadalje biti jedinstveno i skladno. Svi učesnici u kora moraju u tekstu uz isti ritam i tempo držati i jednake prestanke, a u melodiji uvijek na istim slogovima i u istom vremenu izvoditi i jednake zavoje. Bitni čimbenik svake ljepote je skladnost. Ako pjevanje nije jedinstveno i skladno, ono ne će biti ni lijepo, ni umilno, ni pobožno, ni razumno, pa prema tome ne će služiti ni Bogu na čast ni vjernicima na sazidavanje, pa ni samim učesnicima kora na duhovnu korist i slast.

Potrebu ove jedinstvenosti i skladnosti u pjevanju osjetio je najviše sam sabirač naših crkvenih koralnih pjesama, sjemeništni zborovođa i duhovnik o. T i m k o. Inokentije, jeromonah Reda sv. Vasilija, koji si je zadao mnogo truda da stavi pod note sve varijante pojedinih crkvenih pjesama pa da onda između njih izabere one prave i najprikladnije. U tom poslu pomogao mu u znatnoj mjeri pojac stolne crkve u Križevcima g. Davosir Vasilije, koji je mnoge naše crkvene pjesme i sam stavio pod note te ih dao na raspolaganje o. Timku. Za ovu uslugu neka bude g. Davosieru izrečena ovdje posebna hvala. Plod njihovog zajedničkog rada i nastojanja je ovo ovo izdanje zbirke naših crkvenih napjeva. S vremenom će možda i njihov rad trebati kakvih popravki, ali taj posao već neće biti težak, kad mu je položen dobar temelj.

Nego već i prije bilo je kod nas pokušaja izdanja zbirke crkvenih napjeva. Godine 1894. izdao je Segedi Andrija, ravnatelj sjemeništa i veliki ljubitelj glazbe, zbirku liturgičkih pjesama pod naslovom »Liturgija sv. Joana Zlatoustog«. Iste godine izašao je od njega i prvi svezak drugih crkvenih pjesama pod naslovom »Zbirka crkvenih napjeva«, u koju je ušao tek jedan dio najglavnijih koralnih pjesama, kao tropari voskresni s konducima i »Gospodi vozvah« svih osam glasova s dogmaticima, zatim prokimeni večernji i jutarnji te pjesme na polijeley. No mnogo toga, što je valjda trebalo ući u drugi svezak zbirke, nije ugledalo svjetla. Osim toga ovo je izdanje bilo ograničeno samo na par desetaka primjeraka tako, te se ubrzo razpačalo. Danas već riedko tko posjeduje ovu zbirku.

Da se doskoči ovim nedostacima i priredi novo izdanje crkvenih pjesama, latio se o. Timko napornog ali zahvalnog i zaslužnog posla, da upotpuni zbirku Andrije Segedija i priredi drugo obširnije izdanje »prostopjenija«. To mu je eva Bogu hvala i uspjelo. U ovo novo izdanje ušlo je sve iz prvog svezka Segedijeve zbirke, a dodano je još i mnogo toga, što je manjkalo, a što je za unapređenje i izpravno vođenje našeg koralnog pjevanja bilo neobhodno potrebno.

O. Timko mnogo je zadužio sjemenište i eparhiju, što je u ovom izdanju: 1. podvrgao reviziji i izpravicima zbirku crkvenih napjeva Andrije Segedija, 2. što je uz suradnju g. Davosira Vasilija stavio pod note i mnoge druge pjesme, koje dosad još nisu bile zabilježene, a koje su u često upotrebi našeg koralnog pjevanja, kao npr. katavasisje, pogrebne pjesme itd., i 3. što je pregledno i praktički povezao sve u jednu priručnu zbirku »Prostopjenija«.

Zahvaljujemo ovdje svima onima, koji su na bilo način podpomogli ovo izdanje »Prostopjenija«. Naročita pak hvala neka bude kantoniku Kaptola križevačkog presvj. g. Dr. Tomi Severoviću, koji je svojim savjetima te kritičkim poznavanjem koralnog pjevanja u znatnoj mjeri omogućio što izpravnije izdanje ove zbirke.

Napokon posebnu zahvalnost izričemo preuzv. vladici Dr. Janku Šimraku, koji je naročitom pažnjom i zanimanjem pratio rad oko prikupljanja ovih crkvenih koralnih pjesama davajući stalno poticaja za to te namaknuo sva materijalna sredstva za izdanje ove zbirke.

Nema dvojbe, da je ovo izdanje »Prostopjenija« znatni prinos napredku i ljepoti našeg crkvenog pjevanja. Sad su eto stavljene pod note naše najglavnije crkvene pjesme. Njihov tekst dobio je točno određene stanke. Njihove melodije zadobile su svoj konačni ustaljeni oblik. One ne će više podliagati samovolji pojedinih pjevača, pa će time u znatnoj mjeri biti postignuto ono, što je kod crkvenog koralnog pjevanja najglavnije i što sačinjava bit ljepote, naime jedinstvenost i skladnost.

Izdanjem ove zbirke bit će olakšana i poduka u pjevanju učiteljima koralnog pjevanja, kao i učenje školskoj mladeži tako, te će se svatko uz malo dobre volje i uz poneko znanje nota moći brzo i lako uputiti u crkveno pjevanje. Imajući pred sobom ovu zbirku crkvenih napjeva naša će sjemeništna i školska mladež još većim marom i ljubavi prigrliti liepo naše crkveno pjevanje, te uznastojati, da se u njemu što bolje izvježba i usavrši, Bogu na slavu, a sebi i vjernicima na duhovnu korist i sladost.

»Vospoju Gospodevi vo životje mojem, poju Bogu mojemu dondeže jesm« (Ps. 103, 33).

Zagreb, vo denj prestavljenija svjatago apostola  
i evangelista Joana bogoslova 1944.
